Events

"Medicine in the fourth dimension" at Pharmaziemuseum Basel

The CIAN group presents "Medicine in the fourth dimension", an [exhibition](#) at Pharmaziemuseum Basel from April 27 to June 2, 2019.

Pint of Science Festival 20 – 22 May 2019

[Pint of Science](#) is an international annual science festival that takes place in more than 300 cities in 24 different countries every May. The aim of this event is to organize funny, relaxed and informative talks on the latest scientific research for the general public. Invited speakers will give a 20-30 minutes talk for a general audience in a pub in the city centre. There you will have the opportunity to meet with people eager to learn about your research and discuss with them over a pint of beer. Several invited speakers are actually PhDs, Post-docs or Professors from DBE, however, many other researchers from the University of Basel will give talks about diverse fields.

Sofiya Matviyiv, as a part of the organizing committee, would like to invite you to the festival.

Research

Call for Letters of Intent for BRCC Multi-Investigator Program

To promote innovative and forward looking science in child health and well-being, Botnar Research Centre for Child Health (BRCC) seek bold and novel projects from established research groups at the University of Basel, ETH Zurich, UKBB and Swiss TPH engaged in scientific areas relevant to BRCC's focus.

Please find all necessary information about it including the different research areas in the attached document.

A brief letter of intent needs to be submitted [online](#) until May 16, 2019 by 5 p.m. The submission deadline for the full project proposal will be July 15, 2019 at 5 p.m.

11th call BRIDGE "Proof of Concept"

It is still possible to apply for the 11th round of the funding scheme "Proof of Concept". BRIDGE is a joint program conducted by the Swiss National Science Foundation (SNSF) and Innosuisse - the Swiss Innovation Agency. It offers funding opportunities at the intersection of basic research and science-based innovation. Projects can be submitted via the mySNF platform.

The deadline for submissions is June 3, 2019. Please find more information [here](#).

SNF - Investigator Initiated Clinical Trials (IICT) 2019

[The IICT programme](#) of the SNF is targeted at researchers who wish to conduct an investigator initiated clinical trial. Support will be given to trials that address a documented unmet medical need and are of value to the patients but not in industry focus.

The submission deadline for letters of intent is July 1, 2019 and for applications November 1, 2019.

CYBATHLON 2020 – Moving people and technology

The second [CYBATHLON](#) will take place in the SWISS Arena in Kloten, from 2-3 May 2020.

The competition takes the latest assistive technologies for people with physical disabilities and puts them to the test. There will be a reunion with familiar and new teams from all over the world, who will compete in obstacle courses featuring new challenges.

If you would like to help out as a volunteer, you can already preregister [here](#).
